

Escape, Explore, Experience

# PADI NIGHT DIVER COURSE

Dive2go staff has been training new divers through to Instructors in Australia & the South Pacific for more than 25 years. Exploration, excitement and experiences are what scuba diving is all about. The thought of dipping below the surface at night seems mysterious, yet so alluring. Although you've been scuba diving at a site many times before, at night you drop into a whole new world and watch it come to life under the glow of your dive light. The scene changes as day creatures retire and nocturnal organisms emerge. If you've wondered what happens underwater after the sun goes down, sign up for the PADI Night Diver Specialty course while gaining the experience under the supervision of your Dive2go PADI Instructor. You log dives and develop capabilities as you find new ways to have fun scuba diving.

## What will you learn?

Scuba diving at night teaches you to focus on what you can see in your light's beam, on controlling your buoyancy by feel, on staying with your buddy and paying attention to details you may overlook during the day. During three - night dives, you'll practice:

- Light handling and communication techniques.
- Entering, exiting and navigating in the dark.
- Identifying how plants and animals differ or change behaviour at night.

Also, the first dive of this PADI Specialty Diver course, may credit as an Adventure Dive toward your Advanced Open Water Diver certification. Discuss what option is best for you with Dive2go.

## How can you start learning now?

To enrol in the course and get a PADI Night Diver Crew-Pak that includes your manual. By studying before class, you'll be better prepared for the thrill of exploring the underwater world at night.

## What scuba gear will you use?

Along with your basic scuba equipment, you'll use a primary dive light and want to have a backup light, too. Your Dive2go PADI Instructor or staff may suggest other equipment options, such as wearing more exposure protection to stay comfortable after dark.

## What do you need to enrol in the PADI Night Diver Course?

- PADI (Junior) Open Water Divers or higher, who are at least 12 years old, can enrol in the Night Diver specialty course.
- Open Water (only) courses students over 45 years or who exceed a BMI requirement or have pre-existing medical conditions will require a dive medical prior to entering the water within the last 12 months. Medical cost is not included in advertised prices.

**Price:** Start from \$495. Contact Dive2go to discuss what option is best for you.
